

Courses

**14th Annual
EDUCATIONAL CONFERENCE**
March 16-17, 2012
Port Arrowhead Resort - Lake Ozark, MO

Commission Presentation - Dennis Badger

Appraisal reviews can be a challenging and rewarding experience. Recent events have magnified the importance of competent, objective appraisal reviews. Learn the most common appraisal development and reporting deficiencies as well as the most common review report weaknesses. In addition to discussions on appraisal review guidelines, requirements, methods and techniques, participants will examine residential case studies in class exercises. **A calculator is required.** (3.5 hours CE)

The Appraisal Workfile - David Doering - IFA

What do you have in your workfiles? This course will review workfile requirements as well as the benefits of thoroughly documenting the appraisal process from start to finish. (3.5 hr CE)

The Cost Approach - Sharon Lowman MAI, SRA & Jeff Lowman

This seminar identifies the important components in the cost approach (site valuation, building cost new, and depreciation) that often lack sufficient market support. Seminar attendees will derive site values, improvement costs and depreciation using data extracted from the market. This seminar will benefit the residential and general practicing appraiser. (3.5 hours CE)

USPAP - Ernie Demba - FASA, MRICS, PE

This course is designed to provide a comprehensive review of the current publication of USPAP. Preamble, definitions, rules, ten standards, statements, and some of the advisory opinions are reviewed. **Students required to bring a copy of 2012-13 USPAP.** (7 hours CE)

Mathematics for Real Estate Appraisers - Julie Molendorp

This course is designed to familiarize real estate appraisers with the mathematics of their profession. Each principle reviewed will have examples from the field of real estate appraisal. The rationale behind each principle will be discussed. This course will help appraisers understand the steps used in processing data into reliable valuation conclusions. (7 hours CE)
